

J/24 RACE FALL SERIES

AUGUST 17

Perry was the PRO this evening. There were fourteen boats racing. We ran two races using the same course. The course was set up using dropped marks and was a little over 1 nautical mile long. The first race started without any recalls. There were two general recalls before the start of the second race. The tide was outgoing and pushed boats over the starting line. The starting line was adjusted after each recall. All boats were clear at the third start.

There were no protests reported to the race committee this evening.

The Fleet was well represented by Saimira Hakki and Chris Brown of J24 3360 (Barfly).
