

J/24 RACE

JUNE 22

We ran three races this evening using the same course for all three races. Perry was the PRO. The course used an axis of 225 degrees and used dropped marks for the windward and leeward marks. The results from this evening's racing are attached.

The first race started with an individual recall. The OCS boat (2803) returned and started correctly. The second race had two general recalls and two boats were OCS during the third start. One boat (5291) returned and started correctly. Boat 2803 did not return and was scored OCS for the second race. The first attempt to start the third race resulted in a general recall. The third race was then started using the black flag. Two boats (2991 and 3688) were over early for the second start and were scored BFD.

There were no volunteers from the Fleet with the race committee this evening.

There were no protests reported to the race committee this evening.
