

J/24 RACE SUMMER SERIES

JUNE 29

The results from this evenings racing are attached. Perry Lewis was the PRO. The first course was 4 (p) Tetrahedron (p). The second course used essentially the same course axis except that a tetrahedron was dropped to replace mark 4 as the windward mark to shorten the course. The first start of both races resulted in general recalls. One boat (5283) was over early and returned following an individual recall at the second start of the first race. 5283 returned and started the second race correctly.

All boats were clear at the second start of the second race.

The Fleet was well represented by Andrew Morrison of J24 2803 (Civil War).

J24 4119 (Little Martha) radioed the race committee before the start of the race to withdraw because of a collision with 2803 (Civil War).

No protests were reported to the race committee this evening.
