

J/24 RACE SUMMER SERIES

JULY 20

We ran two races this evening. The first used a course of 4(p) 6(p). The second used a course of Tetrahedron(p) and 6(p). Both used the same start line. The windward mark for the second race shortened the length and also moved the course axis slightly to the west. Both races started without any recalls.

There were eleven boats on the line this evening. Matt Coughlin of J24 4116 represented the Fleet well this evening. He was assigned to the mark boat.

We had intended to run three races this evening but the weather appeared unsettled and we decided to stop racing after the second race.

There were no protests reported to the race committee this evening.

All boats were clear at the second start
