

# J/24 RACE SUMMER SERIES

AUGUST 10

The results of tonight's racing are attached. These should not be scored as tonight was the second alternative night of racing for the season. There were 14 boats racing. We ran two races tonight using a windward leeward course with dropped marks. The same course was used for boat races although there were slight adjustments to the starting line.

Ida was anchored west of Goat Island and south of Rose Island. The course axis was 210 degrees. The windward mark and leeward marks were both approximately .5 nautical miles (nm) from Ida.

The first attempt to start the first race resulted in a general recall. There was an individual recall for the second start and three boats were called over. All three returned and started correctly.

There were no Fleet representatives with the race committee tonight.

There were no protests reported to the race committee.
